Bird Rock

Maintenance Assessment District

Preamble

Pursuant to §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the *San Diego Municipal Code*) and City of San Diego Council Resolution No. R-310618 passed on July 22, 2016, authorizing the continued levy of assessments for the life of the BIRD ROCK MAINTENANCE ASSESSMENT DISTRICT (hereinafter referred to as “District”), and in accordance with applicable provisions of “Proposition 218” (being Article XIID of the California Constitution), and provisions of the “Proposition 218 Omnibus Implementation Act” (being California Senate Bill 919) (the aforementioned provisions are hereinafter referred to collectively as “applicable law”), and in accordance with Resolution No. _____, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, and in connection with the annual proceedings for the District, EFS Engineering, Inc., as Assessment Engineer to the City of San Diego, submits herewith this annual report for the District as required by §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

DATE OF FINAL PASSAGE BY THE CITY OF SAN DIEGO,
COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE
_____ DAY OF _____, 2023.

Diana J.S. Fuentes, CITY CLERK
CITY OF SAN DIEGO
STATE OF CALIFORNIA

Executive Summary

Project: Bird Rock
Maintenance Assessment District

Apportionment Method: Equivalent Benefit Unit (EBU)

| | FY 2023 | FY 2024 ⁽¹⁾ | Maximum ⁽²⁾ Authorized |
|------------------------------------|----------------|-------------------------------|--|
| Total Parcels Assessed: | 1,476 | 1,481 | -- |
| Total Estimated Assessment: | \$182,568 | \$182,556 | -- |
| Total Number of EBUs: | 1,826.13 | 1,825.57 | -- |
| Assessment per EBU: | \$100.00 | \$100.00 | \$246.09 ⁽³⁾ |

⁽¹⁾ FY 2024 is the City's Fiscal Year 2024, which begins July 1, 2023 and ends June 30, 2024. Total Parcels Assessed, Total Estimated Assessment, and assessment apportionment factors may vary from prior fiscal year values due to parcel changes and/or land use re-classifications.

⁽²⁾ Maximum authorized assessment rate subject to cost-indexing as approved by property owners at the time of District formation.

⁽³⁾ Prior fiscal year's maximum authorized annual assessment rate increased by cost-indexing factor of 10.29%.

Annual Cost-Indexing: The maximum authorized assessment rates are cost-indexed and will increase (or decrease) annually based on the annual change in the *San Diego Consumer Price Index for Urban Consumers* (SDCPI-U) plus 3%.

Background

The Bird Rock Maintenance Assessment District (District) was established by the City of San Diego (City) on August 2, 2005 by City Council Resolution R-300746. The purpose of the District was, and still is, to fund specifically identified improvements and activities within the boundary of the District.

In conformity with §65.0221 of the “San Diego Maintenance Assessment District Procedural Ordinance,” the City adopted Resolution No. R-310618 on July 22, 2016, approving the annual budget and assessments for Fiscal Year 2017, and authorizing the levy of the assessments for the life of the District, consistent with the benefit findings and assessment apportionment method contained in the approved formational and all subsequently updated Engineer’s Reports (Engineer’s Reports). The Engineer’s Reports are on file with the City Clerk, and incorporated herein by reference.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance.” This annual report has been prepared pursuant to the requirements of §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance.”

District Boundary

The District boundary is generally depicted in **Exhibit A**. The District Boundary Map and Assessment Diagram are on file in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City, and, by reference, are made a part of this annual report.

Project Description

The authorized assessments will be used to fund specifically identified improvements and activities within the District. The District improvements and activities generally consist of maintenance and servicing of certain landscaped and hardscaped improvements, and streetscape features, including but not limited to medians, traffic circles, sidewalks, bulb-outs, monuments, kiosks, curbs, and gutters in the District. The approximate location of the improvements is generally shown on **Exhibit A**.

For additional detail as to the location, type of improvements, and activities performed by the District, please refer to the maps, improvement plans, engineering drawings, maintenance specifications, the Engineer’s Reports and other associated documents on file with the

Maintenance Assessment Districts section of the Parks and Recreation Department of the City. These documents, collectively, are incorporated herein by reference and made part of this annual report.

Separation of General and Special Benefits

The identified improvements and activities provide benefits to the parcels located within the District. These benefits are “special benefits” to the extent that they are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. By law, only “special benefits” are assessable.

The assessments presented in this annual report are based on the cost of improvements and activities determined to provide “special benefits” in accordance with the Engineer’s Reports. For additional detail relative to the separation and quantification of general and special benefits for the District, please refer to the Engineer’s Reports, on file with the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

Cost Estimate

The estimated annual budget (Revenue & Expense Statement) is included as **Exhibit B**. The “Other Contributions (Non Assessment Source)” revenue contained in the budget includes the value of improvements and activities determined to provide “general benefits.” The District budget with full detail is available for public reference in the Maintenance Assessment Districts section of the Parks and Recreation Department of the City.

Annual Cost-Indexing

The maximum authorized assessment set forth in the Engineer’s Reports is permitted to increase annually based on the published change in the “San Diego Consumer Price Index for Urban Consumers” (SDCPI-U) plus 3%. The annual change in second half SDCPI-U values, as compiled by the *U.S. Bureau of Labor Statistics* (see www.bls.gov), for the prior year period was from 325.241 to 348.945 (a 7.29% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rate has been increased by 10.29%.

Method of Apportionment

Estimated Benefit of the Improvements

The proposed District improvements are generally located along the major transit corridors. The Transportation Element of the La Jolla Community Plan, and the general policy recommendations found in the City's General Plan, establish several goals and guidelines for the planned development of the community. The proposed improvements and activities are consistent with these goals. The City's General Plan and the La Jolla Community Plan supports the establishment of community-based landscape improvement and maintenance districts, such as this District, to fund enhanced improvements and activities.

The collector and local streets within the District are the backbone of the street network within the Bird Rock area. These streets serve as the primary access routes for inter-community and intra-community trips, and thus serve all parcels within the District. All parcels within the District benefit from the improved transit corridors through increased community aesthetics, greater public safety, and enhanced commercial identity.

Apportionment Methodology

The total cost associated with District improvement and activities will be assessed to the various parcels in the District in proportion to the estimated Equivalent Benefit Units (EBUs) assigned to a parcel in relationship to the total EBUs of all the parcels in the District.

EBUs for each parcel have been determined as a function of three factors – a Land Use Factor, a Benefit Factor and a Location Factor – related as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Each of these factors is discussed below. Parcels determined to receive no benefit from the District improvements have been assigned zero EBUs.

Land Use Factor

Since the proposed District improvements and activities are primarily associated with the Transportation Element of the General and Community Plans, trip generation rates for various land use categories (as previously established by the City's Transportation Planning Section) have been used as the primary

basis for the development of Land Use Factors. While these trip generation rates address vehicular trips, they are also considered to approximately reflect relative trip generation for other modes of transportation (e.g., pedestrian trips, bicycle trips, etc.), and are considered the best available information for these other transportation modes.

Trip generation rates provide the required nexus and basis for assigning relative proportionality of potential benefit to the various land use/zoning classifications (as defined by the City’s Municipal Code) within the District. Land use/zoning classifications have been grouped with averaged trip generation rates assigned to establish the Land Use Factors as shown in **Table 1**.

TABLE 1: Land Use Factors

| Land Use/Zoning | Code | Land Use Factor ⁽¹⁾ |
|--|------|--------------------------------|
| Residential – Detached Single Family | SFD | 1.0 per dwelling unit |
| Residential – Condominium | CND | 0.7 per dwelling unit |
| Residential – Duplex | DUP | 0.7 per dwelling unit |
| Residential – Multi-Family & Apartment | MFR | 0.7 per dwelling unit |
| Commercial – Office & Retail | COM | 45.0 per acre |
| Educational – Primary & Secondary | EPS | 5.0 per acre |
| Hotel | HTL | 15.0 per acre |
| Open Space (designated) | OSP | 0 per acre |
| Park – Undeveloped | PKU | 0.5 per acre |
| Recreational Facility | REC | 3.0 per acre |
| Street/Roadway | STR | 0 per acre |
| Undevelopable | UND | 0 per acre |
| Utility Facility | UTL | 3.0 per acre |

⁽¹⁾ Proportional to trip generation rates contained in the City of San Diego *Trip Generation Manual* dated May 2003.

Designated Open Space serves primarily to preserve natural landscape and habitat. While access for study and passive recreation is often permitted, these activities are allowed only to the extent they are consistent with the primary purpose of natural preservation. Since this land is essentially “unused” in the customary terms of land use (which relate to human use and development), the trip generation rate is zero. Therefore, the designated Open Space itself receives no benefit from the District improvements and activities and has been assigned a Land Use Factor of zero.

The Recreational Facility category includes those parcels that consist primarily of concentrated facilities, such as swimming

pools, gymnasiums, racquetball clubs, etc. Recreational facilities of a more dispersed nature (e.g., parks, golf courses, etc.) have been categorized separately.

While those traveling the streets and roadways visually enjoy the enhanced District improvements and activities, the actual benefit accrues to the lands at the origins and destinations of their trips, not to the lands of the streets and roadways, themselves. Accordingly, the Streets/Roadways category receives no benefit and has been assigned a Land Use Factor of zero.

The Utility Facility category applies to utility infrastructure facilities, such as water tanks, pump stations, electric power transformer stations, communications facilities, etc. Utility company administrative offices are not included in this category.

Benefit Factor

The Land Use Factor described above establishes a proportionality of relative intensity of use (or potential use) for the various parcels of land within the District. It does not address the relationship of this use to the specific District improvements and activities. This relationship is reflected in the Benefit Factor utilized in the assessment methodology.

In determining the Benefit Factor for each land use category, the subcomponents of the benefits of District improvements and activities may include some or all of the following: public safety, view corridors and aesthetics, enhancement of commercial identity, drainage corridors, and recreational potential. The components used for this District are the following: public safety, aesthetics, and commercial identity.

As Benefit Factors and their subcomponents are intended to reflect the particular relationships between specific land uses within a district and the specific District improvements and activities, Benefit Factors will generally vary from one district to another, based on the specific character and nature of the applicable land uses and improvements being maintained.

For a given land use, the overall Benefit Factor is equal to the sum of the subcomponent values. If a land use category receives no benefit from a subcomponent, then a value of zero is assigned to that subcomponent. A composite Benefit Factor of 1.25 indicates that full benefit is received. A value less than 1.25 indicates that less than full benefit is received.

The applicable benefit subcomponents and resultant composite

Benefit Factors determined for the various Land Use/Zoning categories within this District are as shown in **Table 2**.

TABLE 2: Benefit Factors by Land Use

| Land Use/Zoning | Public Safety (Max. 0.50) | Aesthetics (Max. 0.50) | Commercial Identity (Max. 0.25) | Benefit Factor (Max. 1.25) |
|-----------------------------------|--------------------------------------|-----------------------------------|--|---------------------------------------|
| Residential – All | 0.50 | 0.50 | 0.00 | 1.00 |
| Commercial – Office & Retail | 0.50 | 0.50 | 0.25 | 1.25 |
| Educational – Primary & Secondary | 0.50 | 0.25 | 0.00 | 0.75 |
| Hotel | 0.50 | 0.50 | 0.25 | 1.25 |
| Open Space (designated) | 0.50 | 0.00 | 0.00 | 0.50 |
| Park – Undeveloped | 0.50 | 0.00 | 0.00 | 0.50 |
| Recreational Facility | 0.50 | 0.25 | 0.00 | 0.75 |
| Street/Roadway | 0.50 | 0.00 | 0.00 | 0.50 |
| Undevelopable | 0.50 | 0.00 | 0.00 | 0.50 |
| Utility Facility | 0.50 | 0.00 | 0.00 | 0.50 |

Public Safety. All land uses are considered to receive the maximum available benefit from the public safety aspect of the District improvements and activities. Public safety is essential to all land uses, and even to lands, such as designated Open Space, held in stewardship with only incidental human use.

Aesthetics. The degree of benefit received from the aesthetic aspect of the District improvements and activities varies among land use categories. Generally, by nature of their use, residential and commercial lands receive the greatest benefit from aesthetic enhancement projects. Lands in the Educational, Open Space, Parks, Recreational Facility, Street/Roadway, Undevelopable and Utility Facility categories are considered to receive less significant benefit from the aesthetic aspects of the District improvements and activities, as such enhancements do not affect their function, use, or value.

Commercial Identity. The District improvements and activities will provide an enhanced sense of commercial identity to the primary business corridor in the area. Only those lands in the Commercial and Hotel categories are considered to benefit from enhanced commercial identity.

Location Factor

The Location Factor accounts for the fact that not all parcels within the District receive the same benefit due to the location of the improvements and activities. Location Factors may vary between zero (no benefit) and one (full benefit) as shown in **Table 3**.

TABLE 3: Location Factor

| Location Factor | Description |
|------------------------|--------------------|
| 0.0 (min. value) | No Benefit |
| 0.1 to 0.9 | Partial Benefit |
| 1.0 (max. value) | Full Benefit |

Parcels located north of Camino De La Costa (see **Exhibit A**) have been assigned a Location Factor of zero since there are no improvements currently planned for this area. The Location Factor applicable to a given parcel may be reviewed and adjusted annually to reflect changes in benefit associated with new and/or modified District improvements and activities.

Sample Calculations

As described above, the number of Equivalent Benefit Units (EBUs) assigned to each parcel in the District has been calculated based on each parcel's land use and the identified apportionment factors, as shown in the following equation:

$$\text{EBUs} = (\text{Acres or Units}) \times \text{Land Use Factor} \times \text{Benefit Factor} \times \text{Location Factor}$$

Shown below are sample EBU calculations for several common land uses found in the District.

- **1 Single-Family Residence**
EBUs = 1 unit x 1.00 x 1.00 x 1.00 = 1.00 EBUs
- **1 Condominium**
EBUs = 1 unit x 0.70 x 1.00 x 1.00 = 0.70 EBUs
- **10-unit Apartment Complex**
EBUs = 10 units x 0.70 x 1.00 x 1.00 = 7.00 EBUs
- **½-acre Commercial Property**
EBUs = 0.50 acres x 45.00 x 1.25 x 1.00 = 28.13 EBUs

The sample calculations presented above represent properties located south of Camino De La Costa. Properties located north of Camino De La Costa have been assigned a Location Factor of zero until such time as improvements are constructed in the northern end of the District.

The total assessment for each parcel in the District is based on the calculated EBUs for the parcel and the applicable unit assessment rate, as shown in the following equation:

$$\text{Total Assessment} = \text{Total EBUs} \times \text{Unit Assessment Rate}$$

Based on the above formula, the EBUs calculated for each property, can be found in the Assessment Roll (**Exhibit C**).

Summary Results

The District Boundary is presented in **Exhibit A**.

An estimate of the annual costs of the improvements and activities provided by the District is included as **Exhibit B**.

The assessment methodology utilized is as described in the text of this annual report. Based on this methodology, the assessments for each parcel were calculated and are shown in the Preliminary Assessment Roll (**Exhibit C**).

Each lot or parcel of land within the District has been identified by unique County Assessor's Parcel Number in the Preliminary Assessment Roll and on the Boundary Map and Assessment Diagram referenced herein.
